

Bronco 3rd Brake Light Extension Installation Guide

Thank you for choosing MotoFab Lifts – Proudly Made in the USA.

Step 1: Remove Spare Tire

Take off the spare tire from the factory rear tire carrier.

Step 2: Detach Factory Brake Light

Using a T30 Torx bit, remove the four bolts securing the factory third brake light mount. Keep the bolts for reuse.

Step 3: Attach MotoFab Extension to Brake Light Mount

Position the MotoFab extension bracket onto the original brake light mount. Reuse the four original bolts to secure it. Tighten using the T30 Torx bit.

Step 4: Install Assembly into Tire Carrier

Slide the brake light assembly with extension back into the tire carrier, aligning the holes.

Step 5: Secure Upper Mounting Points

Use the supplied (2) 6mm x 25mm Torx screws to fasten the upper part of the bracket. Tighten with the T30 Torx bit.

Step 6: Secure Lower Mounting Points

Insert the (2) 6mm x 20mm button head bolts through the front of the lower bracket holes. From the back side, place the included washers and Nylock nuts onto the bolts. Tighten with a 4mm Allen wrench (front) and 10mm wrench (rear).

Step 7: Reinstall Spare Tire

Mount the spare tire back onto the carrier.

Terms and conditions

Please read the following terms and conditions of use before using this product

All users of this product are subject to the following terms and conditions and other applicable law. If you do not agree with these terms do not use this product. All parts of this product should be assembled or installed by a certified mechanic.

Limitation of Liability
